Tobacco Stocks Report

as of July 1, 1957

U. S. DEPARTMENT OF AGRICULTURE
AGRICULTURAL MARKETING SERVICE
TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Agricultural Marketing Service.

Stephen E. Wrather
Director, Tobacco Division.

Washington, D. C.
August 15, 1957

AMS-186 (1957-2)

EXPLANATION OF GROUP SYMBOLS BY TYPES OF TOBACCO FOR PURPOSES OF THE TOBACCO STOCKS REPORT

GROUPS OF FLUE-CURED
TYPES 11, 12, 13, and 14:
- A-Wrappers
- B-Leaf and smoking leaf
- C-Cutters
- X-Lugs and primings
- S-Scrap
- N-Nondescript

GROUPS OF FIRE-CURED
TYPES 21, 22, and 23:
- A-Wrappers
- B-Heavy leaf
- C-Thin leaf
- X-Lugs

S-N-Scrap and nondescript

GROUPS OF BURLEY
TYPE 31:
- B-Leaf
- T-Tips
- C-Lugs and cutters
- X-Trash and flyings
- S-Scrap
- N-Nondescript

GROUPS OF SOUTHERN MARYLAND
TYPE 32:
- B-Heavy leaf or dull crop
- C-Thin leaf or bright crop
- X-Seconds and ground leaves
- S-Scrap
- N-Nondescript

GROUPS OF DARK AIR-CURED
TYPES 35, 36, and 37:
- A-Wrappers
- B-Heavy leaf
- C-Thin leaf
- X-Lugs

S-N-Scrap and nondescript

GROUPS OF PENNSYLVANIA SEEDLEAF
TYPE 41:
- B-Binders or tops
- C-Fillers (farm wrappers)
- X-Crop-run and stemming grades
- Y-Farm fillers or ground leaves
- S-Scrap

GROUPS OF OHIO FILLER
TYPES 42-44:
- C-Fillers (farm wrappers)
- X-Crop-run and stemming grades
- Y-Farm fillers or ground leaves
- S-Scrap

GROUPS OF PUERTO RICAN
TYPE 46:
- C-Superior
- X-Inferior
- Y-Trashy (Rabia)
- S-Scrap (Picadura)

GROUPS OF CONNECTICUT VALLEY BROADLEAF AND HAVANA SEED
TYPES 51 and 52:
- A-Wrappers
- B-Binders, seconds, and brokes
- C-Fillers and short darks
- X-Stemming grades
- S-Scrap

GROUPS OF NEW YORK AND PENNSYLVANIA HAVANA SEED
TYPE 53:
- B-Binders, seconds, and brokes
- X-Crop-run and stemming grades
- S-Scrap

GROUPS OF SOUTHERN AND NORTHERN WISCONSIN
TYPES 54 and 55:
- B-Binders
- C-Fillers
- X-Crop-run and stemming grades
- S-Scrap

GROUPS OF CONNECTICUT AND GEORGIA AND FLORIDA SHADE
TYPES 61 and 62:
- A-Wrappers
- B-Stout wrappers and binders
- C-Fillers or tips
- S-Scrap

GROUPS OF FOREIGN-GROWN CIGAR-LEAF
TYPES 81, 82, and 83:
- A-Wrappers
- C-Fillers
- S-Scrap

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Leaf Tobacco Stocks Larger Than a Year Ago

Dealers and manufacturers in the United States and Puerto Rico held stocks of leaf tobacco totaling 4,845 million pounds (farm-sales-weight) as of July 1, 1957. This total is 258 million above the figure of a year earlier (4,587 million). Larger flue-cured stocks accounted principally for the increase. About 44 million pounds, consisting of Maryland and Puerto Rican tobaccos, entered stocks during the April-June quarter.

In comparison with the previous July 1, flue-cured stocks were up 11 percent, holdings of burley leaf were slightly lower than a year earlier, and Maryland, fire-cured, and dark air-cured inventories were higher by 4, 5, and 3 percent, respectively. Of the cigar leaf kinds, stocks of shade-grown cigar-wrapper were 9 percent larger, but filler holdings were down 3 percent, and binder stocks dropped 12 percent compared with a year ago.

Stocks as of July 1, 1957, included about 1,039 million pounds (farm-sales-weight) of leaf tobacco under Government loans 2/ (961 million as of July 1, 1956). These loan stocks were divided as follows: flue-cured, 643 million pounds; burley, 281 million; Maryland, 9.1 million; fire-cured, 51.3 million, dark air-cured 33.9 million; and cigar leaf, 21.1 million.

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. (See tables in body of report for reported weight basis). This report is issued quarterly.

2/ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

CIGARETTE-LEAF STOCKS

Flue-cured and Maryland Stocks Higher Than a Year Ago
Burley Holdings Down Slightly

Stocks of flue-cured tobacco as of July 1, 1957, totaled 2,511 million pounds -- an increase of 253 million over the figure of a year earlier (2,258 million). The marketing year for flue-cured is on a July-June basis, and total disappearance (exports plus domestic disappearance) during the year just ended declined to 1,170 million pounds based on July stocks. This represents a decrease of 111 million pounds from the previous year's level, with most of the reduction being accounted for by lower exports. Based on exports of 464 million pounds (553 million the year previous), indicated domestic disappearance of flue-cured last year was only 706 million pounds (728 million the year previous). Indicated domestic disappearance declined from the preceding year despite the increase in cigarette out-put (estimated up 3.5 percent).

Burley tobacco stocks this July 1 were reported as 1,430 million pounds. This figure is 6 million below the holdings of a year ago (1,436 million).

Inventories of Maryland tobacco on July 1, 1957, totaled 79.6 million pounds, about 3.4 million pounds higher than those reported last July 1 (76.2 million). Marketing of the 1956 crop of Maryland began April 30 and sales through June 30 totaled 27.7 million pounds, or 9 million more than was marketed during the corresponding period in the previous season.

Foreign-grown cigarette and smoking tobacco stocks (Turkish and other) were reported as 208.5 million pounds as of July 1, 1957 -- an increase of 13 million over inventories on July 1, 1956 (195.5 million).

DARK TOBACCO STOCKS

Fire-cured and Dark Air-cured Inventories Show Increases Over Stocks Reported July 1, 1956

Stocks of fire-cured leaf, reported at 160.1 million pounds on July 1, 1957, were 7.2 million larger than holdings on the same date last year (152.9 million). Types 21 and 23 stocks were only slightly changed from those on hand a year ago, and the increase for total fire-cured occurred principally in type 22. Fire-cured stocks on this July 1 were as follows: Virginia, 27.9 million pounds; Eastern District Kentucky and Tennessee, 104.7 million; and Western District, 27.5 million.

Dark air-cured holdings of 93.6 million pounds on July 1, 1957, were 2.5 million more than those of a year ago (91.1 Million). Stocks were larger than on last July 1 in each of the types. Inventories of dark air-cured on this July 1 by types were as follows: One Sucker, 55.7 million pounds; Green River, 31.4 million; and Virginia sun-cured, 6.4 million.

CIGAR LEAF STOCKS

Domestic Filler and Binder Cigar-leaf Stocks Smaller Than a Year Ago Shade-grown Wrapper Holdings Increase

Inventories of all domestic-grown cigar tobacco, including Puerto Rican, totaled 331.7 million pounds (farm-sales weight) on July 1, 1957. This is a decrease of 5.7 percent below the holdings of last July 1 (351.6 million). It is estimated that about 16.5 million pounds of the 1956 crop of Puerto Rican entered stocks during the quarter. Stocks of foreign-grown cigar leaf on hand as of the July 1 reporting date were 24.0 million pounds -- 3.4 million more than was held a year earlier on the same date (20.6 million).

Holdings of the cigar-filler types as of July 1, 1957, totaled 204.3 million pounds -- 7 million smaller than the figure reported on last July 1 (211.3 million). With the exception of Type 41, which showed a slight increase, stocks of all filler types were below last year's levels. Inventories of cigar-filler by types on this July 1 were as follows: Pennsylvania Seedleaf, 116.0 million pounds; Ohio filler, 24.7 million; and Puerto Rican, 63.6 million.

Cigar-binder stocks totaled 108.9 million pounds on July 1, 1957 -- 14.4 million less than holdings on the same date last year (123.3 million). Holdings of all types were lower, the largest decrease (about 21 percent) being reported in Type 51. Connecticut Valley Broadleaf stocks this July 1 were 27.6 million pounds, Connecticut Valley Havana Seed, 21.3 million; Southern Wisconsin, 24.0 million; and Northern Wisconsin, 35.9 million.

Shade-grown cigar-wrapper stocks as of July 1, 1957, totaled 18.5 million pounds consisting of 11.3 million of Connecticut Valley Shade and 7.1 million of Georgia-Florida Shade. This compares with 17.0 million on hand a year ago, holdings increasing this July 1 by 7.4 and 10.6 percent respectively, in the two types. Disappearance of Type 61 during the past marketing year (July 1956 - June 1957), based on changes in stocks, was 9.5 million pounds, slightly more than the previous year's disappearance (9.4 million). Disappearance of Type 62 was indicated at 6.2 million pounds, compared with 7.3 million during the previous marketing year.

Stocks of Cuban leaf (Havana) were 16.8 million pounds, compared with 16.3 million a year ago; Sumatra and Java leaf stocks were 0.1 million -- unchanged from last July 1; and Philippine Islands (Manila) inventories were 7.1 million, compared with 4.2 million on the same date last year.

TABLE 1.-Average percentage of weight remaining after handling, sweating, drying, and stemming, and factors used for adjusting stocks reported by dealers and manufacturers to a farm-sales-weight equivalent, by types of tobacco 1/

Type	Type number	Yield realized from farm-sales-weight to --			Stemming		Factors used to multiply by to convert reported stocks of	
		Packed in domestic order			Yield from actual weight at time of operation	Yield from farm-sales weight	Stemmed stocks to unstemmed equivalent	Unstemmed stocks to farm-sales-weight equivalent 2/
		Packed weight	to the end of --					
			One year in storage	Two years in storage

1/ Information in this table taken from U. S. Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, issued in July 1937. 2/ Factors for converting unstemmed stocks to farm-sales weight are adjusted on the basis of an average loss on the reported weight and should not be taken as indicative of full shrinkage after handling, sweating, and storage. 3/ See footnote 1 on page 5 for conversion factors to farm-sales-weight equivalent for cigar leaf except Type 46. 4/ Foreign-grown stocks not converted to farm-sales-weight equivalent.

Table 2.-Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, July 1, 1957, compared with other quarters 1/

1/ For factor used in converting weights see table 1 except for cigar leaf. The instructions for reporting unstemmed cigar-leaf of the domestic types require dealers and manufacturers to indicate the weight basis on which the tobacco is reported, namely farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of the amount reported in these three categories. The conversion factors by types of tobacco for July 1, 1957 are as follows: Type 41, 107; Types 42-44, 114; Type 51, 106; Type 52, 106; Type 53, 109; Type 54, 102; Type 55, 104; Type 61, 109; Type 62, 114. July 1, 1957 figures subject to revision.

2/ Separate reporting discontinued.

3/ For explanation of stocks included in this classification, see footnote 5 on page 10.

4/ Foreign-grown leaf is converted to an unstemmed equivalent basis only.

* Revisions in April 1, 1957 report.

TYPES 11-90 - TOTAL ALL TYPES

Total	2,520,259	1,418,644	3,938,903	2,406,266	1,328,513	3,734,779	2,666,277*	1,557,288*	4,223,565*

1/ Subject to revision.
2/ Separate reporting discontinued.
3/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.
4/ Includes Puerto Rican on the Island, Type 46.
5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.
6/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.
* Revisions in April 1, 1957 report

1/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

2/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealer holdings.

3/ Includes stocks on the Island of Puerto Rico.

4/ Separate reporting discontinued.

5/ For explanation of stocks included in this classification see footnote 5 on page 10.

6/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

1/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1956, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

2/ Subject to revision.

3/ Separate reporting discontinued.

4/ For explanation of stocks included in this classification see footnote 5 on page 10.

5/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

* Revisions in April 1, 1957 report.
